

NOTIFICATION OF A PERSONAL DATA PROTECTION VIOLATION TO A PERSON CONCERNED

(art. 34 of Regulation and §41 of Act)

In case of a personal data protection violation that is likely to lead to a high risk to the rights and freedoms of individuals, Slovak aviation agency s.r.o. will notify the person concerned of the personal data protection violation without unnecessary delay.

The notification to the person concerned contains a clear and simple statement of the nature of the personal data protection breach and at least information and measures to the following extent:

- Name and contact details of the contact point where more information can be obtained;
- Description of the likely consequences of personal data violation;
- A description of the measures taken or proposed by the operator, aimed at correcting the breach of personal data protection, including measures to reduce its potential adverse consequences, if necessary.

This notification is not required if:

- Slovak aviation agency s.r.o. has adopted technical and organizational protective measures and has applied them to personal data, to which the breach of personal data protection relates,
- Slovak aviation agency s.r.o. has subsequently adopted measures to ensure that the high risk to the rights and freedoms of the persons concerned is likely to no longer have consequences,
- That itself would require a disproportionate effort (in which case the Slovak Aviation Agency s.r.o. would inform the public or take measures to ensure that the person concerned is informed in the same efficient way).

Detailed information on the rights of the persons concerned and the manner in which they are to be applied can be found at the operator's web site <http://www.slla.sk/>, a <http://www.siaf.sk/>.
